THE WEATHER. - Since last night we have had snow, hail and rain. The weather, however, though disagreeable, has not been very cold. The ground this morning was covered nine o'clock last night, and continued, accompanied at times by rain and hail, until half past one this evening. The wind last night and this morning was from the east, but before noon to-day it came out from the northwest. The snow soon turned into slush, and walking has been in consequence very uncomfortable. But few people have been out-only those who were compelled to be by their business.

Were it not so, the result of the seine hauling in Aquia Creek yesterday and the day before, would be considered a bad augury. In the several drags of a small seine, not enough fish were caught to feed the hands employed, and not a single shad or herring.
